

### Piano Adventures Sightreading Coach Parent/Student Registration

When a student is under the age of 18, email invitations to join the program will be sent to the student's parent or guardian. To begin the registration process click on the green box in the email you received from the student's teacher. Using an iOS device? Get the free mobile app first before clicking the button.

Create an account for yourself and then your child »

We want to be sure that you get the most out of Piano Adventures Sightreading Coach. Book-mark [coach.pianoadventures.com](https://coach.pianoadventures.com) for easy access when you want to log back in.

Your child's free 30-day trial starts today.

Clicking this link will take you to the account creation page. If you have multiple children who are going to be enrolling, you will only follow this step one time. Additional students can be added to your parent account later.

It is very important that you complete all the steps to create BOTH accounts when you initially click the link. Navigating away from the site before the process is complete may result in the account becoming inaccessible.

1. If this is the first time you are creating an account, click on "I agree to the terms of service"

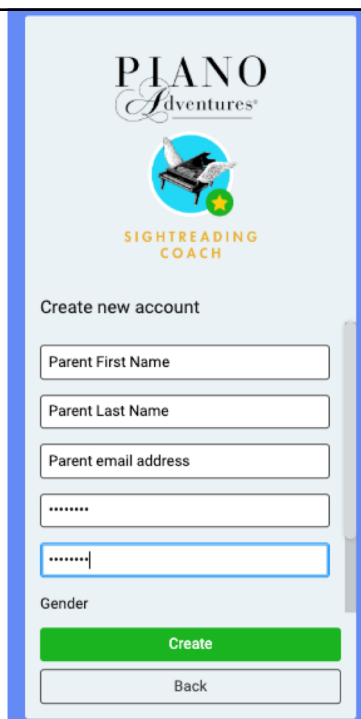

The registration form for Piano Adventures Sightreading Coach. At the top is the logo with the text "PIANO Adventures" and "SIGHTREADING COACH" below it. The main heading is "Create a parent account using". Below this is a toggle switch for "I agree to the terms of service". There are three buttons: "Google" (red), "Facebook" (blue), and "Username and password" (green). At the bottom, there are links for "I already have an account!" and "Contact us".

2. You can then choose to create your account using either Google, Facebook, or a unique Username and Password combination of your choosing. Your username will be your email address.

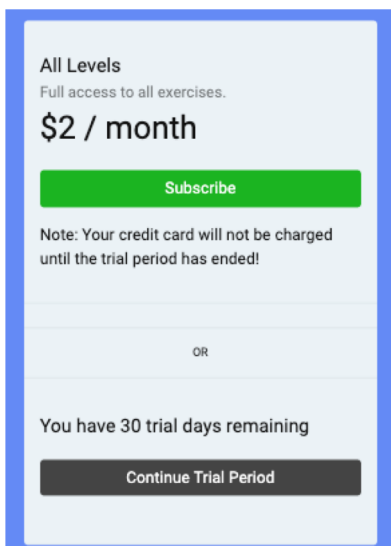

3. If you choose Username and Password you will be taken to the screen to the right. Here you will enter your personal details and then click “Create”. Remember that the email you enter here will become your username. You will enter details about your child in the next step. Passwords are case sensitive and must be at least 8 characters in length.

The screenshot shows the 'Create new account' screen for Piano Adventures Sightreading Coach. At the top is the logo with 'PIANO Adventures' and a piano icon, and 'SIGHTREADING COACH' below it. The form includes fields for 'Parent First Name', 'Parent Last Name', 'Parent email address', and two password fields (one with a strength indicator). There is a 'Gender' label and two buttons: a green 'Create' button and a grey 'Back' button.

If you choose Google or Facebook on the previous screen, the system will skip this step and take you straight to Step 4 (on the next page)

4. Your 30 day free trial begins when the email invitation is sent by the teacher. There is no need to enter any payment information until the trial is up. Click “Continue Trial Period” to move to the next step and create your child’s username and password.

The screenshot shows a trial offer screen. It says 'All Levels' and 'Full access to all exercises.' followed by '\$2 / month'. There is a green 'Subscribe' button. Below that is a note: 'Note: Your credit card will not be charged until the trial period has ended!'. In the center is the word 'OR'. At the bottom, it says 'You have 30 trial days remaining' and has a dark grey 'Continue Trial Period' button.

5. This is where you will enter all the student's details and create their own unique username and password. Again, the password is case sensitive. The username for the child's account does not need to be an email address. Use something that will be easy for you and your child to remember. You can reset the password for the child's account from inside your own account later if necessary. Once you have completed all fields, click "Create".

The image on the left below is how the menu in the upper left of the screen will appear when you are logged into a parent's account. The image on the right is how the menu will appear when you are logged into a child's account. Frequently we will hear from parents who say their child does not have the option to record. This is typically due to inadvertently being logged into the parent's account without realizing it. Parents can listen from the parent account to the demo of all exercises as well as all the student's saved recordings. Parents can also see any comments or communication between teacher and student. Parents do not have the ability to record from the parent account.

### For families with multiple children enrolling

You will receive an email invitation from your children's teacher for each child. Once you have gone through the steps to create a parent account and an account for one child, you will skip the step of creating a parent account and proceed to steps 4 and 5 only.

To do this you will still click on the link in the invitation email but rather than click to agree to the Terms of Service and choosing how you want to log in you will click on "I already have an account" and log in using the method you chose during the set up for your first child. Steps 4 and 5 will be the same. You will be able to see all of your children's activity in the app from your one account.

The screenshot shows the login interface for the Piano Adventures Sightreading Coach app. At the top, the logo "PIANO Adventures" is displayed in a serif font, with "PIANO" in all caps and "Adventures" in a script font. Below the logo is a circular icon featuring a piano keyboard and a green star. Underneath the icon, the text "SIGHTREADING COACH" is written in a bold, sans-serif font. The main heading "Create a parent account using" is followed by a toggle switch and the text "I agree to the [terms of service](#)". Below this are three large, colored buttons: a red button labeled "Google", a blue button labeled "Facebook", and a green button labeled "Username and password". At the bottom of the form, there is a link that says "I already have an account!" and a "Contact us" link.
